

# Antimicrobial SuperFabric®

SuperFabric® **Am99**® is a line of SuperFabric® that adds antimicrobial functionality. SuperFabric® materials are already known world-wide for their performance properties such as durability, stain resistance, breathability, quick drying, and more.

**Am99™** pushes the boundaries by adding antimicrobial functionality while still maintaining the other inherent features of SuperFabric®. They have been tested by one of the leading laboratories (TUV-SUD) and found highly effective at killing microbes and viruses on its surface.

**Kills Viruses and Bacteria**

**Odor-Resistant**

**Mold & Mildew Resistant**

**Environmentally and Ecologically  
Friendly**

**Durable**

**Stain Resistant**

**Quick Drying**

**Abrasion Resistant**

**AND more!!!**

The antimicrobial agent used in **Am99™** kills and retards the growth of these types of microbes on its surface:

viruses

bacteria

mold

mildew

fungi

algae

Am99™ is formulated with antimicrobial properties to protect the SuperFabric® itself from stains, odors, and damage caused by bacteria and other microbes. Antimicrobial protection is limited to the SuperFabric® material. Higher Dimension Materials makes no direct or implied claims to protecting users or providing other health benefits.

This revolutionary textile uses IONPURE antimicrobial agent (EPA Registration Numbers 73148-1 through 73148-3 and 73148-5 through 73148-8) embedded into its guard plates, resulting in a durable treatment that does not wash off under normal laundering conditions, does not leach and is highly resistant to being abraded off.
